Wreck Occurs Within City Limits

TWO NEGROES HANGED ON THE SAME SCAFFOLD IN KANSAS CITY

One of the Men Collapsed and Was Carried on to the Trap-They Had Assaulted a White Woman

single scaffold, George Reynolds and John Williams, two negroes, were hanged simultaneously in the county fail here at 6:30 o'clook this morning. The crime for which they were executed was assault, this making the first death penalty that has been assessed in Missouri for this act. Reynolds was pronounced dead in seven minutes. Williams lived nine minutes. County Marshal Joel B. Mayes sprung

the trap.

Reynolds collapsed a few hours before the execution, and it was neces-sary to carry him in a chair to the trap. When the chair was removed he fell limp on the trap door, moaning piteously. Officers lifted him from the floor and adjusted the noose

"God knows I never committed the awful crime with which I am charged," was his constant wall.

Williams, who has been known for years as a desperate character, remained brave to the last. Even while standing on the scaffold he forced a smile. A priest held a crucifix to the negro's lips. At first he refused to kiss it, but as the priest pushed it closer, the condemned man touched it with his lips.

For a week prior to the hanging Reynolds had not touched food, be-lieving he could cheat the gallows by starvation. Williams chatted and laughed tt all times.

W. H. Jackson, husband of the woman upon whim the assault was committed, wtnessed the hanging. The crime for which Reynolds and Williams was hanged was committed

Williams was hanged was committed on the night of December 23, 1909. Mrs. Jackson, who is an expert vio-linist, was returning home from a charitable institution, where she had given a concert, when she was at-tacked. The negroes dragged her into a secluded spot and assaulted her in a terrible rearner.

a seculated spot and assaulted her in terrible manner.

Passers-by frightened the woman's assailants away. With difficulty Mrs. Jackson reached home and told her story. The police captured the ne-groes a few hours later. They con-fessed their crims fessed their crime.

Intense feeling was aroused against the negroes. There were many threats of lynching. Convictions were tained in a trial that lasted but two days. City prison inmates celebrated in a riotous manner when they learned the verdict. In passing sentence upon the men, Judge Ralph S.

'I shall not desecrate Friday, the day upon which legal hangings usually take place, by ordering your execution on that day. There is at least a spark of manhood left in almost every man who is executed by the state. But there is no manhood in either of

Proposed Corporation Bill Would Stop New Construction

Pittsburg, Feb. 8.—Jos. Ramsey, Jr., of St. Louis, former president of the Wabash railroad, who is visiting in this city, says that he fears the pro-posed bill in congress, controlling the construction of new railroad lines would be an effectual check on new projects

"That bill," he said, "compels the sale of stock of all new railroad companies at par. No capitalist would put money into a new enterprise at put money into a new enterprise at par, and congress could not do more toward throttling such projects than by passing the bill. Even the bonds would be valued according to the views of the interstate commerce commission, and, of course, their value would be artificial as they would not be fixed on a market basis."

Any new railroad, he says, would have to be built by existing corrors.

have to be built by existing corpora-tions that are rich enough to support such an enterprise and keep the par value of the stock up in spite of the value of the stock up in spit project being now unknown.

STOCKS CONTINUE TO DECLINE ON STOCK EXCHANGE

New York, Feb. 8.-Further decline ening prices of stocks today showed the liquidation movement of yesterday's demand in force. Copper, the Industrials and Union Pacific were handled with especial severity, but losses of a large fraction to a point were common to all the promi-nent stocks. American Smelting sold at a decline of 23-8; Great orthern certificates, 13-4; Utah Copper, 15-8; Amalgamated Copper, 11-2; American Locomotive, 13. There were running sales of 6,500 shares of Union at 179 to 171-2, compared Pacine at 179 to 171-2, compared with 1901-4, yesterday's price, United States Steel sold as low as 75. Reading, after opening down 1-2, recovered to 3-4 over last night, and secondary prices showed some general improve-ment. American Smelting rallied

In many cases the rally, which began after the opening, carried priess above yesterday's final figures and reduced the severe declines to trivial fractions. United States Steel common, with many others, rallied a point, and its recovery did much to point, and its recovery did much to stimulate the rise all around. American Smelting and Northern Pacific rose 11-4. The recovery established a number of substantial net gains, but reduced the activity to the point of duliness. Rock Island's gain reached 21-4; Northern Pacific, 2; Reading and General Electric, 11-2; Utah Copper, 13-8; Southern Pacific, 11-4; Union Pacific preferred, Colorado Fuel and Consolidated Gas, 1, Prices were shaded a fraction before noon.

Bonds were heavy.

Chicago Livestock.

Chicago, Feb. 8.—Cattle—Receipts estimated at 11,000; market weak and estimated at 11,000; market weak and lower. Beeves, \$4.30@7.60; Texas steers, \$3.90@5.00; western steers, \$4.10@6.00; stockers and feeders, \$3.10@5.45; cows and helfers, \$2.20@5.70; calves, \$7.00@9.00.

Metal Market. New York, Feb. 8—Copper, dull; standard spot and March 13a13.20. Silver 51 3-8.

DR. HYDE IN A BAD LIGHT

Nurse Gives Damaging Testimony in the Swope Case

Kansas City, Feb. 8.—Important witnesses were heard today at the in-quest at Independence, Mo., by the coroner's jury that is finally to decide what caused the death of Col. Thos.

Dr. Ludwig Hektoen's testimony was considered important. He is the toxicologist who had arrived from Chicase during the morning. The specialist, it was expected, would give the first complete and official report of the three chemists who examined the viscera of Col. Swope. Upon this report alone might ultimately be determined the question as to whether the philaphylogists. anthrophist had died from natural causes or as the result of poison administered with crimina

Among the other witnesses to be examined today were Mrs. Logan H. Swope and her daughters. The latter were expected to tell of their illness while suffering from typhoid fever during the siege following Col. Swope's death and during which nine members of the family were stricken.

Mrs. Swope, the sister-in-law of Col. Swope and mother of Chrisman Swope and Mrs. B. C. Hyde, has kept in seclusion since the Swope mystery became a sensation. She was an object of great interest as she testified regarding Col. Swope's illness and death in her house. Mrs. Hyde was again absent and it was announced that she was still sick abed.

Dr .Hyde and other principals were on hand early and occupied their usual chairs and another expectant audience completely filled the court

When the inquest was resumed to-day, Miss Pearl Keller, a nurse, who attended Col. Swope in his last ill-ness, again took the stand.

Late vesterday this witness had given the significant evidence that her patient had, up to within a few days of his death, taken a self-pre-scribed tonic that contained strychnine. Today she told of more import-ant details of Col. Swope's symptoms and actions on the day of his death J. E. Trogden, the deputy coroner, who is interrogating the witnesses, is going into the minutest detail.

Miss Kellar told of an interview she had with Dr. B. C. Hyde on the night Moss Hunton, Col. Swope's ad-

ministrator, died.

ministrator, died.
"I was passing in and out of Col.
Swope's room just about twenty minutes after Col. Hunton died." Miss
Kellar said, "when Dr. Hyde met me
in the hall and said he wanted a private interview with me. I said that I
would see him later, and so Dr. Hyde went to the car line and came back in about an hour and a haif. When he got back to the house he went into the parlor and dismissed a nurse who had come to nurse Col. Hunton. The nurse left and then just Dr. Hyde and Mrs. Hyde, the undertaker and myself Mrs. Hyde, the nouse and soon the were awake in the house and soon the sitting room was empty. I went in sitting room was empty. I went in there and Dr. Hyde came in and spoke

Miss Kellar stopped for a moment and her hands pulled at a handker-"And then-" Attorney Trogden sug-

"Well, then Hyde spoke about how good a man Col. Hunton had been and said how awful it was that he died. Then he said that he had something to ask me. 'I am not a business man,' he remarked, 'but then I can care for things pretty well. Col. Hunton is gone now and in a few days he'll make a new will and put a new man in the

place of Col. Hunton as administrator.
Now, you have influence with the old
man and I want you to suggest me as
his administrator. You see, Col.
Swope intends to put another man in
the place of Col. Hunton and he isn't
a good man for the place and I want
you to suggest me."
"And your answer was?" Trogden

asked.
"I told Dr. Hyde that I could not "I told Dr. Hyde that I could not do that; that I would be overstepping my bounds. Then Dr. Hyde tried to persuade me that it would be all right for me to talk to Col. Swope about the matter and that I could do it very nicely. But I wouldn't consent to this. The next day Dr. and Mrs. Hyde went into the city and did not get back until 9:30. When he met me in the hall, he asked me if I had spoken to Mr. Swope about the matter. I told Mr. Swope about the matter. I told him that I had not, and there was not anything more said about it." Sitting close behind his attorneys today, Dr. Hyde listened to the testi-

mony. At first his eyes were half closed and his head was bowed. Later he raised his head and watched the nurse closely. The court room was quiet, more quiet than at any other time during the inquest. In the closely crowded benches, not a person moved, so intent were they not to miss a bit of the testimony.

They Are the Trained Minds from Seats of Learning

Los Angeles, Feb. 8.—That the present political war between the so-called "insurgents" and the "regul-ars" in both houses of congress is in fact a war between college and noncollege men, was the opinion of Dr. David Starr Jordan, president of Stanford University, expressed by him in an informal talk to the students of the university of Southern California vectorias

yesterday.
Dr. Jordan said the regulars represent the last of the old-time politicians who are in politics solely for personal reasons. "Their places are being taken by men with trained minds, with university educations, who work for the good of the nation," he said. "This change now coming over the political life of the nation, is only one of the numerous changes that are taking place today. Will over the world, the demand for the college bred man is growing stronger.'

COLD STORAGE NOT RESPON-SIBLE FOR THE HIGH PRICES

Washington, Feb. 8:-William M. Read, secretary of the American Warehouse Committeemen's associa-tion, which includes thirty-two cold storage and refrigerator plants of the country, today issued a statement en-deavoring to show that foodstuffs were not being hoarded in the cold storage plants and that no attempts were being made by the warehouse-men to conceal the quantity they had on had. Mr. Read declared the but-ter and eggs stored in twenty of the cold storage plants in the association belonged to 2,446 different persons and firms, which, he said, indicates that there would be great difficulty in

cornering these products. According to Mr. Read's figures there were more than 500,000 cases of eggs in storage anutry 1st, and there were but 183,000 there on Feb-ruary 1st, showing that more than 400,000 cases were taken out of stor-age during January.

FOUGHT TEN ROUNDS.

Kalamazoo, Mich., Feb. 3.-Jack White of Chicago and Tommy Garry of Chicago Heights fought ten rounds here last night, and while the referee give no decision, the opinion of the crowd favored Garry. Both men were down early in the fight, Garry catchin White with his left just at the end of the first round, while in round two, White retaliated and sent Garry to

THE PIPES

Pittsburg, Feb. 8.—Assuming the role of head of the house during the absence of his father. Auton Zwigart, aged 9, attempted to thaw out water pipes. His attempt is said to have set fire to the house, causing a loss of \$2,500, tied up a street car line for an hour while the fire department huddled at the foot of the hill on which the house stood, unable to reach the burning building.

Anton burned some papers beneath the pipes, according to the firemen and then started off to school. Some neighbors saw smoke issuing from

neighbors saw smoke issuing from the cellar of the house and notified Mrs. Zwigart who turned in the

MALAD VALLEY MOTOR CAR STRIKES PASSENGER TRAIN

Men and Women Are Injured and Three Are Conveyed to the Ogden General Hospital in Ambulance-Motor Car Was Wrecked and Passenger Engine Disabled --- Occupants of Car Feared Fire or an Explosion When They Found Themselves Entrapped

A head-on collision between the Malad Valley motor car and Oregon Short Line train No. 24 from the north occurred at 9 o'clock this morning, as the south bound train was entering the Ogden yards, resulting in injuries to many passengers on the motor car, which was badly wrecked. The collision was caused by the

As the result of the wreck three persons are lying in the Ogden hospital suffering severe injuries and a number of others are nursing sprained wrists and ankles, and bruised and omewhat lacerated bodies.

For a time this morning the Union

Depot was turned into an improvised emergency hospital, and railroad men applied themselves diligently in band-aging wounds and giving succor to those who were in distress. In the meantime the hospital ambulance was called and the services of Dr. Joyce, the railroad physician, were in de-

year and his repair bill is very large. , a heartless dealer said, "Yes, hair is Then I know several men who have taught big financiers and have benefitted by stock market suggestions few wee, which they have received. You can see for yourself that golf is by no trust in means an underpaid business."

The collision was caused by the motor car attempting to make a siding at the neck of the yards in time to clear the main line for the delayed passenger train. The wreck occurred on a sharp curve at the corner of Wall avenue and Twenty-second

Since He Announced That He Will Give Away His Money

New York, Feb. 8 .- Another mysterious murder was added to the long list of puzzling crimes which the year 1910 has brought to the New York Shortly before 2 o'clock this morning a fusillade of shots rang out on

Avenue A, an East Side street. lone pedestrian, hurrying homeward after spending the evening with friends, saw two men run down a dark alley with smoking revolvers in their hands. At the street corner where they had been standing, the pedestrian found the body of a third man who had been their companion. He was shot through the heart.

A policeman hastily summoned, found nothing to identify the slain man except a business card bearing this inscription:

"Anthony Gregory, dealer in shoes, 1000 Lincoln avenue, Pittsburg." The rather indefinite description of

WHY FAIRBANKS

given to the Associated Press by Archbishop Ireland today in which the archbishop savs:

archbishop says: "People in America mayy easily mis-apprehend the circumstances in Rome which led the Vatican to refuse an audience with the holy father to Mr. Charles W. Fairbanks, after he, a for-mer vice-president of the United States, would have made a public address before the Methodist association of that city. Most likely, Mr. Fairbanks, himself, did not fully realize he meaning which Romans would at-

tribute to his address. was not a question of Mr. Fairbanks, being a Methodist or going to a Methodist church in Rome for Sunday devotions. It was a question of appearing to give the fullest approval to the work of the Methodist association in Rome.

I was in Rome last winter and I made a very particular study of this Methodist propaganda. It has gone so far that Catholics have organized the Society for the Preservation of the Faith," to fight against it.

"The purpose of the work of the Methodist association in Rome is confessed openly. The means employed are by no means honorable. They take every advantage of the poverty to imitate the bird and the fish, an take every advantage of the poverty of the poor of Rome. The books circulated and displayed in the windows swimming. They have long enjoyed a fine swimming pool and their instructor, Prof. Walter Shock, has adopted the use of small biplanes in the course. Sarah Herzberger, a 14-tion of the whole Catholic system. tion of the whole Catholic system

Now, a public address by a former the method of the Methodist association. Had the holy father, guardian of the spiritual interests of the Catholic church of the world, smilingly welcomed Mr. Fairbanks to an audience on the following day, in what other position would he appear to be than giving his approval to the propacanda of the Methodist associatio which the address had been

"It was simply impossible for the hely father, in his official position as a sovereign pontiff of the Catholic church, to do aught else than to say politely to Mr. Fairbanks:
